tolerance in sorghum with Dr. Borrell. The visitors were also taken around the facilities in DSR, including Food lab, Biotech lab and lysimeter. Dr. Patil showed the new rabi cultivars in the field to the visitors and described their adaptability and high yielding traits. Both visitors delivered a seminar at DSR. While Dr. John Carman spoke on "Gene regulation during sexual and apomictic development in immature ovules of sorghum and Boecheera", Dr. Andrew Borrell's talk was on "Physiological and molecular aspects of drought adaptation in cereals: linking canopy, water and nitrogen dynamics". Besides DSR scientists and research staff, scientists from DRR and DOR also attended the seminar. Dr. John Carman was in India to deliver lectures in the training programme on apomixis at Indian Grassland and Fodder Research, Jhansi and visited DSR to discuss about the collaborations on apomixis research in sorghum and Dr. Borrell, who is also an Australian partner of ongoing international collaborative project among ICRISAT-ILRI-QDPI-UQ-DSR funded by ACIAR, Australia visited Hyderabad to participate in the national seminar in plant physiology 2012 held at ANGRAU, Hyderabad.

National seminar on Plant Physiology held

National seminar on plant physiology on "Physiological and molecular approaches for development of climate resilient crops" was held during 12-14 December, 2012 at Acharya NG Ranga Agricultural University, Hyderabad. This programme was jointly organized by Department of Crop physiology, ANGRAU, Hyderabad and Indian Society of plant physiology, New Delhi in association with Directorate of Sorghum Research (DSR), Directorate of Oilseed Research (DOR), Directorate of Rice Research (DRR), Central Research Institute for Dry Land Agriculture (CRIDA) and the plant physiology club. About 350 delegates from national and international organizations participated in this event. Two technical sessions were chaired by Dr. JV Patil, Director, DSR and co-chaired by Dr. HS Talwar, Pr. Scientist. Dr. Talwar presented a lead paper on "Sorghum: A smart crop to adapt to future climate change scenario". Drs. SS Rao, Pr. Scientist and M Elangovan, Sr. Scientist also participated in this seminar.

Dr. Bansal visits DSR

Dr. RK Bansal, Director, NBPGR, New Delhi, visited DSR on 13 December, 2012. Dr. JV Patil, Director, DSR described

on the institute's current activities, aspirations and thrust areas with respect to all research matters. Dr. Bansal savoured the novel sorghum foods being popularized by the institute and discussed the initiatives on entrepreneurship development activities.

Rao, Orthopedic Surgeon, Yashoda hospital, Hyderabad delivered a lecture on "Osteoporosis- a common ailment related to bones". He also participated in the interactive session on women health.

Annual Review meeting on Britannia project

Annual review meeting on the progress of NAIP sub-project in collaboration with M/s Britannia Industries Ltd (BIL), Bangalore was held on 6 December, 2012 at DSR. This meeting was chaired by the Dr S V Rao, director In-charge. DSR. Mr. B Prashanth and Mrs Savitri from Britannia group, Dr B Dayakar Rao, PI, DSR, Dr K N Ganapathy, Scientist, DSR and other project staff of DSR participated in the deliberations. The meeting dealt with the progress of the project and future plans. The officials from Britannia also visited the Centre of Excellence to view the activities of sorghum food processing.

Sorghum Stall at "Agro tech 12" Akola

The sorghum stall, set up by the DSR at "Agro Tech 12" received an unprecedented response. DSR installed a "Sorghum food stall" at "Agro tech 12", the state level mega agricultural show was jointly organized by PDKV, Akola and Department of Agriculture, Maharashtra at Akola during 26 - 30 Dec, 2012. More than one lakh visitors including farmers, scientists, agriculture officers, progressive farmers, farm-women groups from NGOs, visited the stall and shown keen interest in the newly developed sorghum food products. The importance of sorghum as health and nutritious food was explained to the visitors and relevant literature was distributed. There was a heavy demand for sorghum food products sold at the stall. Mr. Promod kumar, Technical Officer, coordinated and managed the stall.

INSIMP monitoring visit - Maharashtra

Monitoring of Initiative for Nutritional Security through Intensive Millet Promotion (INSIMP) project was undertaken in Solapur, Ahmednagar and Pune districts of Maharashtra from 28 December 2012 to 01 January 2013. Dr. VR Bhagwat, Principal Scientist, DSR, surveyed these

areas in coordination with staff of the State Department of Agriculture from respective districts. In Solapur district total 110 projects on rabi sorghum production technology were

conducted in 55000 ha. and in Ahmednagar district 58 projects were implemented in 29000 ha. Mostly, *Phule Revati*, *Phule Vasudha*, and *Phule Chitra* were grown with improved rabi production technology. Fifteen field trials were organized by the State Department of Agriculture (SDA) in Baramati and Daund taluks were also monitored in Pune district. He also visited one of the food processing units maintained by the progressive farmers at village Ramwadi near Indapur. Logistic support was provided by the Deputy Director, Department of Agriculture, Pune for monitoring this project.

Promotion

Based on the recommendations of the ASRB **Dr. IK Das**, Senior Scientist (Plant Pathology) was elevated to the post of Principal Scientist through the career advancement scheme. Congratulations to Dr. Das for this accomplishment.

Recognition

Dr. HS Talwar, Principal Scientist, DSR was recognized by the Indian Society of Plant Physiology (ISPP) for his significant contributions to the field of "Plant Physiology and cognate sciences" by admitting him as "Fellow of Indian Society of Plant Sciences". Dr. Talwar received this honour during the national seminar in plant physiology-2012 held during 12-14 December, 2012 at ANGRAU, Hyderabad. DSR Family congratulates him for this achievement.

Other Visitors

Trainees from EEI, Hyderabad: Twenty five trainees from EEI, Rajendranagar Hyderabad, visited DSR on 14 December, 2012 to get exposure about the sorghum research and developments, as a part of their curriculum. Dr. B Dayakar Rao, CPI, NAIP, briefed the visitors with the present sorghum scenario, processing technologies developed and marketed by DSR and future prospects.

School children: A total of 53 school children from Janapriya Talent School, Hyderabad along with two teaching faculty visited DSR on 31 December, 2012 as a part of their educational tour. Smt. Vishala AD narrated the research and other activities at food technology and processing unit at DSR. This was followed by field visit to

educate them on the cultivation practices to be followed for sorghum production. The visit was facilitated by Mr. HS Gawali, Technical Officer.

Farmers: 35 farmers from Parbhani under HOPE project (ICRISAT) visited DSR on 10 December, 2012 to get an insight on sorghum processing technologies developed by DSR.

Trainees: 13 trainees from Dept. of Agriculture, Tamil Nadu visited sorghum food processing lab on 19 December, 2012, as a part of their training on PPP – developing scenario in food processing.

Invited lecture

Dr. KBRS Visarada, Principal Scientist, DSR addressed the farm women groups on the occasion of ICAR celebrations of "Women in Agriculture" held at Directorate of Rice Research, Rajendranagar, Hyderabad on 4 December 2012.

Superannuation

Mr. T Sridharan, who served this institute in various capacities, superannuated from Councils service as Finance and Accounts Officer (FAO) on December 31, 2012. A farewell was offered to him by the institute's recreation club
